Elite Combo and Nationwide Best – February

February so far has seen Platinum **Elite-Combo** make **\$1,503 net profit**.

22 bets for 10 winners.

45% strike rate and 50% profit on turnover.

Nationwide in Feb so far is **down \$290**.

4 winners from 13 bets is 31% but no value (ave \$3.21)

Since the algorithms' upgrades in September, the Nationwide bank has increased by **3.65%**.

Elite-Combo bank has advanced **25.47%** in that same period.

But, by betting the two plans' unique qualifiers (*highest if duplicate qualifier*), the **gain is 41.18%**.

Elite Combo and Nationwide Combined.

Option 1: ALL Bets

Bet ALL qualifiers from both plans - Nationwide Best and Elite Combo - with the amount as listed (adjusted to suit your bank of course). If a horse is listed on both raceday bet lists, bet both amounts.

Option 2 Unique Qualifiers (Recommended):

Bet ALL qualifiers from both plans with the amount as listed (adjusted to suit your bank of course).

If a horse is selected by both plans, back it only once (bet the higher of the two as listed amounts)

We can report that most members are now Platinum package members. The extra cost to move from Nationwide to Platinum is proving well worth it. It opens up access to the complete Elite Racing portfolio;
Sydney, Melbourne, Nationwide and Platinum, all in the one package.

If you only have access to Nationwide, it's not too late!

Copy this text and email to [Richard](#). He might surprise you:

"Re Nationwide member: Richard, please advise my options of upgrading to Platinum"

By constructing one raceday list from Platinum and Nationwide's list of bets, the profits are much greater. Not only that, but it also provides a much stronger defence against bad days. The average losing day for betting ALL Nat and Elite Combo qualifiers is - \$601. For the unique combination strategy, it is just - \$396.

The average winning day is + \$740. And there are more winning days than losing.

We'll Do It For You!

Considering that a large number of clients are betting on the Combination Plan (option 2), we have decided, for a test period, to make all the calculations for you.

We will produce an **extra** list on the Platinum raceday message that looks like this:

Unique Bets			Elite Combo + Nationwide			
Time	Track	AM Odds	Race	TAB	Selection	\$10k Bank
12:35 PM	Flemington	\$ 3.30	2	6	Fiorennot	100

These are the Unique qualifiers from Nationwide-Best and Elite Combo today.
If a horse is selected by both strategies, the the higher bet is used.

This will bump the raceday emails back. We have consistently been getting the messages out by 9:30am EST which is an hour before the 10:30am deadline. We expect to still beat 10:00am.

\$200 Bets

We are not happy with the live \$200 bets (2.0% of the bank). The pre-live stats were enormous but since September, **a level \$100 bet on all unique qualifiers has made 46% more bank gain (+ \$6,020 v \$4,118)** than the bet scale as listed. And that's from 29% average smaller outlay!

It will turn but we are certainly monitoring it.
