Each raceday, the Sydney and Melbourne message includes an “**Elite Ratings at a Glance**” list.

It includes all the rated races with the top-5 rated selections in order then the rest of the field in AM Odds order.

Instructions for our long-proven method of betting on Elite rated selections in Exactas, Trifectas and First Fours is included with each raceday list.

Multi betting is good fun and provides an interest in most races.

You can scale down the outlay to any amount you like.

If we get the **winner in the top-3 rated**, then a multi collect is virtually assured.

We did that SEVEN times out of EIGHT in Sydney on Saturday.

We did that SEVEN times out of EIGHT in Melbourne on Saturday.

Of the 14 times we nominated the winner in the top-3, 13 become winning multis for Elite punters, read on...

Here is Saturday’s Melbourne resulted “Elite Ratings At A Glance” list.

Betting a full unit on Saturday’s Melbourne ratings using our long-proven method made \$8,802 Net profit. There were seven returns from the eight betting races.

On Saturday, there were ratings for nine of the ten Caulfield races.

Race 1 was top-5 only. It is possible to use our method in those top-5 only races. Simply put the remainder of the field into price order to construct your multi.

We are leaving that race and applying the "Base Multi" instructions on the fully rated races. (It was a winner by the way).

Below the raceday list for Saturday (above), we have included:

System according to the number of starters. With only 7 starters, we can't take a 3x9x9x12 of course. The bet on that race is therefore 3x7x7x7.

Calculations:

Exacta: Multiply number of WIN horses x (number of second horses – 1).

Trifecta: Multiply number of WIN horses x (number of second horses – 1) x (number of third horses – 2).

First 4: Multiply number of WIN horses x (number of second horses – 1) x (number of third horses – 2) x (number of fourth horses – 3).

The cost of a full 3x9x9x12 is \$1512 for a dollar unit. You can flexi this down to any amount (percentage) you like.

Example 1, Race 4.

There were 13 starters in race 4 so this is a good example of our full 3x9x9x12 method.

Three to WIN: 4-3-7

For Second: 4-3-7 PLUS six more to make NINE: 15-6-2-9-8-1

For Third: same as second: 4-3-7-15-6-2-9-8-1

For Fourth: 4-3-7-15-6-2-9-8-1 PLUS three more to make twelve: 11-10-13

A Winner (Single Choice)!

Exacta paid \$65, Trifecta \$ 534 and First 4 \$4,366.

It is up to each member to decide whether to **cull numbers and what flexi bet amount they choose.**

If culling, work from the bottom eg: if you only want to take ten for 4th, 13 and 10 would miss that spot.

Example 2, Race 6.

There were 9 starters in race 6 so the bet was 3x9x9x9.

Three to WIN: 4-5-9

For Second: 4-5-9 PLUS six more to make NINE: 8-1-7-6-3-10

For Third: same as second: 4-5-9-8-1-7-6-3-10

For Fourth: same again (no further runners to add) 4-5-9-8-1-7-6-3-10

Another Winner (Bossy Benita)!

Exacta paid \$116, Trifecta \$ 642 and First 4 \$7,153.

Sydney got six out of eight. Check it out!

It wasn't the best day to start the trial of listing the combined Elite Combo and Nationwide on Saturday. Nationwide had five seconds and thirds out of seven bets. Elite Combo got three winners from the nine races and virtually broke even.

The combination has increased to \$10k bank by \$3,393 since live date in September.

We provide a spreadsheet which records the Nationwide/Elite-Combo data.
