With Elite Racing you have unique access to winning selections and proven profitable betting strategies. If you can make the commitment to yourself to bet methodically and professionally as instructed, then you can make as much as you want from your betting.

WELCOME TO ELITE RACING

Elite are here to help you improve your betting skills and therefore your chances of winning at this fascinating game.
We put an extraordinary amount of time into form and video study and combined with our experience and leading- e d g e methods; no other service can match our expertise in race analysis of Melbourne Racing.

We not only provide sound, thoroughly researched selections, our main aim is for you to develop as a punter and eradicate the usual bad habits associated with aimless or compulsive betting.

You can't get rich overnight, but you can do a whole lot better than Mr. Average Punter who squanders a huge chunk of his pay packet every week. Less than 2% of bettors are successful professional punters. But when you consider that 2% of the usual Saturday race crowd at a city track is about 20 people, you realise that you have probably rubbed shoulders with them every time you've been to the track and more importantly, they are just like you. The only difference is they have dedicated themselves to winning at racing. Many are Elite clients.

Checklist of a WINNING Punter

Checklist of a WINNING Punter

Two punters can have access to exactly the same long-term proven winning selections yet one will win and the other will lose. The winner committed to the following non-negotiables. The loser has baulked at one or more - and it only takes one.

- ○ Make a genuine, full-hearted pledge to yourself to do what it takes to win at punting.
- ✓ Have access to profitable long term selections that are proven to win at level stakes over many hundreds of past actual tips.
- ✓ Have a strategy
- ○ Stick to the strategy and don't second-guess any qualifying bet.
- ○ Bet the percentages as recommended.
- ✓ Know in detail what past bad runs have looked like and know that they are an ongoing fact of life for any punter.
- ○ Have a physical Bank. No bank means guaranteed failure. It is amazing how a bad day seems so insignificant when a REAL bank is in place.
- ○ Mug bets must be funded by a separate bank and EVERY ONE must be recorded. You will be amazed how these eat up the cash despite the occasional windfall. They can be good fun if the money won't be missed.
- ○ Never mix up bets from other services or sources with Elite bets.

We have already ticked the box for three of the nine essentials.

ELITE RATINGS RACEDAY INFORMATION

Melbourne and Sydney Saturday- Class meetings are covered all year round as well as selected night meetings and the city class meetings held at country venues.

You always have several methods of accessing this information:

ELITE RACEDAY INFORMATION: How to Access

Raceday Service	**Where**
Internet Main Site	www.eliteracing.com.au
Smartphone	www.eliteracing.com.au
Members Login:	https://www.eliteracing.com.au/login
Email: Summary of the day's strategy bets and race-day Pro-Sheets	Deadlines: Online and emailed. Mel, Syd, Platinum and Nationwide before 10:30am race- days. We usually get them to you well before that deadline but some days it gets very tight. **If there are late adjustments, the member's raceday page is where to get that up-to-date information**.

Keep Up to Date

Don't get left behind!

Please take the time to read the latest newsletters and memos and make sure you read the extra information on the raceday emails. We are always responding to queries from clients or simply sharing new knowledge. If we find an extra edge you will be the first to know.

Clients who do not bother to invest those few minutes and read the material soon get left behind and become confused.

Office Communications

Email is always best.

Our phone communication does not compare with our email customer service because phone calls can come in when we are under the pump and simply have not got the time to give considered answers to some queries. With 600+ clients it becomes impossible to allocate the time to provide a satisfactory phone service.
Email us with clear questions and we will take the time to make sure you get the right answers, nearly always on the same day.

Winning with Elite Racing:

Elite Racing information is regarded by professionals as the best available for Melbourne and Sydney racing.

We provide free betting strategies and ongoing, updated recommendations to keep up with the forever changing betting landscape in Australia.
The hard part is done at this end, but you still can't win unless you apply our proven investment strategies with the resolve to give it a **fair dinkum go for the long term**.

Track Conditions

We put a lot of extra work into getting the track condition right and in over 90% of the meetings throughout the year we race on conditions that we expect.
On the raceday message we list the track grading 1-10 (1 being very hard and fast and 10 being very heavy) - that we base the ratings on. We add notes if necessary so you can bet without worrying about the conditions.

However, if you **set a rule not to bet if the track grading changes more than one grade away from our morning grading** then over the long haul you should expect better results. If we list two gradings, the first-mentioned grade is the one to use. For example, if we note our track 'rated to' as "3/4" the 3 should be used. If it is "5/4", then use 5.

All results are recorded even if the conditions change more than one grade.

We look forward to the wet tracks because it is another area where our research, experience and methods provide a clear advantage. Windy days can be problematic, and we keep detailed records of wind speed and very importantly wind direction.

Why Doesn't Elite have Bookie Ads?

Being paid for providing racing tips whilst having an affiliates arrangement with bookies is a conflict of interest.

It is a bit rich to claim to provide winning information for members but then take massive commissions when their clients lose. Yes, 25% of their referred clients' losses (and higher) for life.

If you want to be a part of a service that gets paid by bookies if you lose, then Elite is not for you.

Elite continues to lead the way in the racing services industry by the length of the Flemington straight.

- Amazing ratings accuracy
- Betting strategies that really do win in real-time.
- Unequalled customer service
- Always going that extra mile to make sure clients get 110% from their Elite investment from day one.
- Almost a hundred of our 700 (capped) Australian and International members started with us in the nineties!

But more importantly it is our proven integrity and honesty in all dealings that set us apart.

Best of the Odds

We record our results accurately using official bookie odds. We used to apply Best of the Best, which is the best of Top-Flucts or the three totes. That has been turned off for most punters, so for quite a while now, we have been using Top-Flucts. That is the top official fluctuation throughout betting (which opens about 20 minutes prior to the race start time.

We often get asked to help with "which bookie should I bet with…" etc.

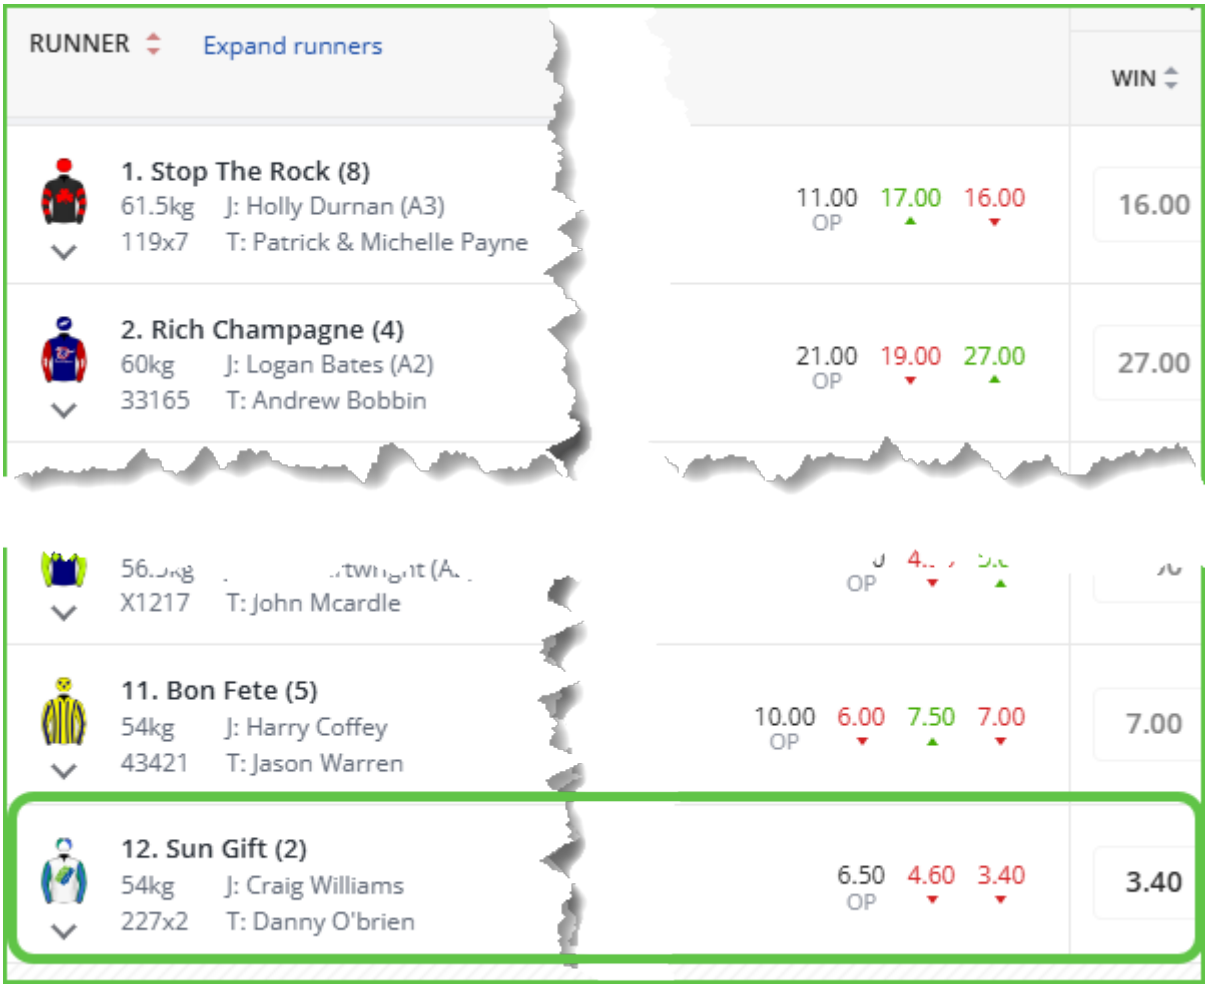

Today a query was to do with getting top-flucts and the member's example was Elite-Combo winner Sun Gift on December 27th December.

Keep in mind that we refuse to promote any bookmakers. Other services do for a big commission on their clients' losses. That is totally wrong and we are happy that our success depends on our clients winning - not losing.
If a racing service has bookie ads, steer clear!

Our answer:

"…Unfortunately, it is every man for himself as far as getting the best odds.
It is impossible for us to evaluate bookies because each punter is getting different offerings. It depends on what has been cut off for each individual.
However, most feedback is that members are getting top-flucts at Vicbet.com.au.
We must draw a consistent line for results reporting. Quite often members get better than Top-Flucts.
Sun Gift was $5.00 and more throughout the morning betting.

This is Ladbrokes fluctuations for Sun Gift:

$6.50 was available in the morning.

Sun Gift was $5.00+ in the morning, opened at $4.40 (officially) then firmed throughout betting to start at $3.40.

It's a tough game and consistently getting better odds is a big advantage. If you can get top-flucts, we recommend you stick with that for all bets. Those who can't have to put in extra time to maximise their returns on each bet.
We wish we could be more help in that area.

Elite Betting Strategies

Minimum Odds

Most Elite Strategies have no set minimum AM (morning) odds cut-off. However, most members apply their own minimum price that suits them.

Our research shows that qualifying bets that are shorter than $2.30 AM Odds can be discarded without giving up much profit. The < $2.30 strike rate will be around 50% but the profit percentages are negligible.

Mel and Syd COMBO Strategies

The Melbourne and Sydney Combo Bets are calculated and presented on the raceday messages.

Most raceday bet lists assume a $10k bank. ($200 = 2.0% of the bank)

Elite Combo Betting

At the Saturday meetings, all the strongest qualifiers from Elite Racing's main strategies are collated and a sliding bet scale is applied.

The bet size ranges from 1.0% to 2.0%. That's $100 to $200k for a $10k bank.
The bets are listed to an assumed $10k bank.

This is the **main strategy** for Platinum members.

- Don't bet if Opt-In Scale is 1
- Choose an opt-in level – we recommend 5. (Bet if 5 -10).

Elite Nationwide Best

We source the standout computer-generated bets for the day throughout Australia. The bets are provided by email and online by 10:30am (or half an hour prior to the first betting race).

Saturday Coverage

At the Saturday (and major Public Holiday meetings) the Nationwide service provides the Nationwide Best Bets from Melbourne, Sydney, Brisbane.

The bets are provided on one single list in time order.

On Saturdays, **complete Top 5 Ratings sheets** are provided for the **Adelaide and Brisbane** races.

Wednesday Coverage

For Wednesday meetings, complete Top 5 Ratings sheets are provided for the **Vic, NSW, Qld and Adl** races. Nationwide recommended Midweek Bets (Nat-MW) are listed on the ratings sheets. A separate bank for the midweek bets is recommended, and all bets are 1.0% of the bank.

Action

There are approximately 380 Nationwide Best-Bets bets per year. That's about **8 bets per week.**

Which Plan (continued).

Elite Combo and Nationwide Combined.

Two options for betting on both lists were explained in detail in several recent newsletters.

Option 1: Betting ALL Nat and Combo qualifiers.

Simply place a bet on ALL Elite Combo bets and ALL Nationwide Best bets as listed.

You will sometimes be backing the same horse twice and you do need a separate bank for both strategies.
The advantage of this choice is that there is no extra race-morning work other than placing the bets for both plans.

Option 2 (Recommended): Betting UNIQUE Nat and Combo qualifiers.

Bet on each unique selection from the Nationwide Best list and the Elite Combo list.
If a horse is selected by both plans, back it ONCE with the larger of the two listed bets.

Very simple and only one bank is required.

It's our recommended way of betting both Elite Combo and Nationwide Best.

Other Plans

Multi Betting: Exactas, Trifectas and First Fours

Each raceday message (online, email and app) for Melbourne and Sydney includes the "ALL-Rated" list for each rated race. This is where members go to source their Multi betting action for the day.

The instructions below the list are our recommended method of setting up your multi bets.

Here is how a typical **All-Rated Multi sheet looks after the** results are filled in.

Base Multi: 3 to win, 9 for 2nd, 9 for third, 12 for fourth
ie: Top-3 Rated to WIN, ADD next six to those three to make nine for 2nd and third, ADD 3 more to those 9 to make 12 for fourth. The "Pro" version uses the same formula however stick to races with 12-15 runners.

The $17k div was **$28k in NSW** but we stick to Vic Divs for consistency.

Boxing several horses is never a good idea. That is what the other 99% of punters do and it plays into our hands.

Race 8 would have been a winner for a box-5 but the other three winning multis that we got at Sandown relied on the wide net we set for the placings.

If we hadn't found **Flying Sardine** (2nd Race 4 at 50/1) in our five rated selections she would have been right at the bottom of the list in tenth place (longest odds in the race). We take nine for second and third and would have missed the $17k F4.

Multi Betting Success comes down to:

- **finding the winner in the top 3 Rated**
- **including the right longshots in the top 5**
- **having the net spread** to nab the Pacodalis (Race 9- 1) well down the list.

We do all that for you with uncanny consistency.

Example: Race 8 above

Three to WIN: 9-5-1

For Second: 9-5-1 PLUS six more to make NINE: 14-12-17-2-16-11

For Third: same as second: 9-5-1-14-12-17-2-16-11

For Fourth: 9-5-1-14-12-17-2-16-11 PLUS three more to make twelve: 13-7-18

It is up to each member to decide whether to cull numbers and what flexi bet amount they choose. If culling, work from the bottom eg: if you only want to take seven for second, 16 and 11 would miss that spot.

Multi Betting: Exactas, trifectas and First Fours continued…

Multi Betting: Exactas, Trifectas and First Fours September 2025 Update

This section was updated in September 2025 so newer members could relate to the examples, having seen them with their own eyes.

Each raceday message (online, email and app) for Melbourne and Sydney includes the “ALL-Rated” list for each rated race. This is where members go to source their Multi betting action for the day.

The instructions at the bottom of the list are our recommended method of setting up your multi bets.

Boxing several horses is never a good idea. That is what the other 99% of punters do and it plays into our hands.

Multi Betting Success comes down to:

- Finding the winner in the top 3 Rated
- including the right longshots in the top 5
- Having the net spread to nab those longshot placegetters well down the list.
- We do all that for you with uncanny consistency.

Here is how a typical **All-Rated Multi sheet looks after the** results are filled in.

Base Multi: 3 to win, 9 for 2nd, 9 for third, 12 for fourth.
ie: Top-3 Rated to WIN, ADD next six to those three to make nine for 2nd and third, ADD 3 more to those 9 to make 12 for fourth. There are step by step examples in the online intro-pak.

Multi Betting Continued

Example: Race 4 above.

Three to WIN: 14-1-6

For Second: 14-1-6 PLUS six more to make NINE: 4-12-13-16-2-3

For Third: same as second: 14-1-6-4-12-13-16-2-3.

For Fourth: 14-1-6-4-12-13-16-2-3 PLUS three more to make twelve: 11-15-8.

It is up to each member to decide whether to cull numbers and what flexi bet amount they choose.
If culling, work from the bottom eg: if you only want to take seven for second, 2 and 3 would miss that spot.

Result:

Number 14 won (Revalare $3.60, top-rated)

Number 2 came second (Smokin' Romans $26)

Number 16 Came third (Mormon $13)

Number 11 came fourth (Charterhouse $26)

Exacta: YES	$66
Trifecta: YES	$801
First Four: YES	$9,925

Colour Coding Winning Chances and Main Dangers

In October 2020 we introduced a colour coding system for Saturday Melbourne meetings. We highlight the definite winning chances in green and the serious dangers in blue.

In this example we had six REAL winning chances (green) and ONE that we considered a danger that would not surprise at all.

8	2500m Hcp (SW) $500k												Starters:	12

9	CARIF	BM	$ 26.0	Peter Snowden	Kerrin McEvoy		11	55.0	55.0					
13	~~SUPER GIRL~~													

Miami Bound won at $26.

Note1: The order that the horses are listed as: **Top 5 rated selection in order** then **the rest in order of AM** (morning) **odds.**

This example shows it was a very tough race. Our Top-5 rated are all green as well as Oceanex. Just the one other was considered as a genuine chance to upset our main chances - Miami Bound.

Hush Writer was considered no hope (no colour) but was listed above Oceanex etc because his price (AM Odds) was shorter. Same with Trap for Fools/Miami Bound.

Elite Racing Data Spreadsheets

Members have always had access to the most detailed results, analysis and interactivity ever made available to racing service members. We encourage members to analyse and audit the data we provide within your results member pages.

We keep a detailed record of all our Elite Rated horses and provide spreadsheets that include all the base ratings data and the main strategies' formulas and calculations. It's interactive so you can analyse in just about any way you like.

We upload the Spreadsheets on race morning, and this data never changes.

Knowing that this information is loaded before the races, and is never changed, gives great confidence when doing what-ifs or testing filters on old data. The answer you get is based on exactly what happened in real time.

It is not a requirement that you be able to view Microsoft Excel Spreadsheets but members who do get far more from their membership.
There is a FREE **Microsoft Excel viewer** available from Microsoft. Simply google it.

The Rating Sheets

The Elite-Ratings rating sheets have been produced since 1987 and provide a wealth of information. They are used by professional punters and bookmakers for that extra information that is quite often only uncovered by the Elite Racing Form Analysis process.

Here is what you see on the Race-day Pro-Sheet which is attached to your raceday email as well as uploaded to the members' page in Excel and Pdf versions.

Abbreviations

- ✓ Elite Ratings Top 5 Rated with assessed odds for most races on the card.
- ✓ Other runners listed in morning odds order.
- ✓ Colour Coding: Green = Definite Winning Chance, Blue = Definite Danger (could win without great surprise)
- ✓ Accurate Speed Map for all runners. The "FAIR" heading at the top means the race is expected to be run at a fair pace. (Slow, Fair, OK, Good, Fast)
    - L = Leader
    - OP = On-Pace
    - M = Midfield
    - B = Back beyond midfield
    - LOP = Most probably Lead Otherwise On-Pace
    - MB = Most likely Midfield but maybe Back
- ✓ AM Odds: We list carefully calculated morning odds of each runner to 120%.
- ✓ Trainer
- ✓ Jockey (with claim if applicable)
- ✓ Barrier.
- ✓ Weight to carry.
- ✓ The column next to the horse's name is headed with the Pace of the race: Slow, Fair, Ave, OK, Good, Fast.
- ✓ Form: This column rates the top five FORM horses.
- ✓ Scen: This is the top five "scenario" horses ie: the best record at today's race scenario (distance, going, track etc)
- ✓ Elite Rated Order: this is the rated order of Elite's Top 5 Rated horses. 1 means TOP- Rated.
- ✓ Elite's rated odds for each of the five rated horses. A guide only, no overlay betting at Elite.
- ✓ Pro-Strategy Original: The famous Pro-Strategy suggested bet that has been part of Elite Ratings since 1987. **Not a recommended strategy** but does form the basis from where our main strategies are built. The Mel and Syd Pro strategy uses this information.

Confused or overwhelmed?

In newsletters and memos, we do discuss other strategies and ideas from time to time. We provide winning strategies, but Elite members have plenty of free data to make their own informed decision as to how they make best use of all the Elite raceday information.

The bets for the main plans are worked out for you and listed on race morning with the recommended bet size - ready to bet.

Multis are a fun way to get involved in more races and get returns from more of the big-priced winners that we find on a regular basis.

Conclusion

You will not win money at the races unless you can rigidly stick to a plan through thick and thin.

If you can make a commitment to yourself to bet methodically and professionally from now on, then I know that you will make as much as you want from your betting.

There have been **many losing streaks for every plan, sometimes spanning many months** yet they all recovered the losses and hit new bank record highs for those who stuck with them.

The recovery phase is fantastic but **sadly comes when some members have decided to give up.** They most probably did not have the physical bank in place.

With Elite you have unique access to winning selections and proven profitable betting strategies; all you need is the determination and business-like approach to make this work.

The percentage of renewals to Elite is extremely high, the envy of our competitors. We work tirelessly to keep it that way. **Subscribers do not renew unless they are happy with the service, and they are making a profit.**

If you have any specific queries, just **send an email**.

We are here to help you and improve all aspects of your punting. We try to check emails of an **urgent nature** right up to 11:00am (EST) on race morning but after that we are in the ring backing our judgement just like you.

Looking forward to a long and profitable association.

All the best

Larry and Richard Taylor
