

Saturday.

Just the two (short-priced) winners from seven betting races (10 bets) for the Elite Combo on Saturday. We addressed the **two-bet race issue** in the newsletter of 17th August and have repeated that passage below.

Nationwide-Best found three winners from ten bets but again, too short.

Lots of 2nds, 3rds and 4ths but we are waiting for that overdue run of winners at good odds.

Most feedback has centered around the **Multi betting** after those **monster returns** at Flemington: \$12k and \$106k first fours and \$2.5k and \$4.6k trifectas among other smaller results.

There were long-shot winners at Flemington, but we rated most of them very highly

Welcometotheshow won at \$15.00. He was second top rated.

Losesomewinmore won at \$12.00, also second rated.

St Lawrence won at \$21.00. He hadn't won for 675 days but we had him third rated.

Each race day we provide the "**Elite Ratings at a Glance**" which lists all the rated races. Clear instruction for our recommended multi-betting strategy is included **every time**.

The Top-5 rated selections are listed in order then the remainder are in AM Odds order.

Complete instructions with clear examples are included in the Intro-Pak. We have repeated that section below.

Here is the resulted list from Flemington on Saturday.

For our method to win, the winner must be in the top-3, second and third must be in the top-9 and fourth must be in the top-12.

Saturday's winners and successful multi bets are highlighted in yellow. Five winners were in the top-3.

Base Multi: 3 to win, 9 for 2nd, 9 for third, 12 for fourth ie: Top-3 Rated to WIN, ADD next six to those three to make nine for 2nd and third, ADD 3 more to those 9 to make 12 for fourth. The "Pro" version uses the same formula however stick to races with 12-15 runners.										

The \$17k div was **\$28k in NSW** but we stick to Vic Divs for consistency.

Boxing several horses is never a good idea. That is what the other 99% of punters do and it plays into our hands.

Race 8 would have been a winner for a box-5 but the other three winning multis that we got at Sandown relied on the wide net we set for the placings.

If we hadn't found **Flying Sardine** (2nd Race 4 at 50/1) in our five rated selections she would have been right at the bottom of the list in tenth place (longest odds in the race). We take nine for second and third and would have missed the \$17k F4.

Multi Betting Success comes down to:

- finding the winner in the top 3 Rated
- including the right longshots in the top 5
- having the net spread to nab the Pacodalis (Race 9- 1) well down the list.

We do all that for you with uncanny consistency.

Example: Race 8 above

Three to WIN: 9-5-1

For Second: 9-5-1 PLUS six more to make NINE: 14-12-17-2-16-11

For Third: same as second: 9-5-1-14-12-17-2-16-11

For Fourth: 9-5-1-14-12-17-2-16-11 PLUS three more to make twelve: 13-7-18

It is up to each member to decide whether to cull numbers and what flexi bet amount they choose. If culling, work from the bottom eg: if you only want to take seven for second, 16 and 11 would miss that spot.

Three to WIN: 5-4-1

For Second: 5-4-1 **PLUS** six more to make NINE: 11-2-13-15-3-6

For Fourth: 5-4-1-11-2-13-15-3-6 **PLUS** three more to make twelve: 9-7-12

Result:

Number **5** won (Super Titus \$17.00, top-rated) Number **6** came second (Mahamedeis \$31) Number **13**

Came third (Chapada \$11) Number **1** came fourth (Carzoff \$18)

Exacta: YES \$315

Trifecta: YES \$2,932

First Four: YES \$39,294

Two Bets in a Race *(Excerpt from Aug 17th newsletter)*

Some members don't like betting on more than one horse in a race. We can understand this but the rationale that 'one has to lose' is a bit naïve.

Members have the choice to leave the race alone or maybe bet on the higher rated selection or the longer-priced or any other elimination criteria they land on using the spreadsheet to analyse.

Two suggestions.

- Read the Don Scott books (Winning, Winning more etc.) where this famous pro explains in depth backing multiple horses in a race.
- Study the Elite-Combo results – actually, we'll do that for you.

Of the 1800+ Elite Combo bets (2021-2026) **556 were in two-bet races.**

[Elite Combo 2 in race 2021-2026 to Aug 15th 2026](#) – PDF

So, **278 Elite Combo races had two bets. About 1,300 races had just the single bet.**

The 182 two-bet-race winners equate to **65% winning 2-bet races.**

Two Bets Per Race Net profit 2021-2026 is \$28,633 (>\$400 net per month).

Rated Position (Mel or Syd pro-sheets) **in the Two-Bet races.**

Top-Rated : 76 winners from 237 bets (32% @ \$4.01). Profit: **+ \$9,323.**

Coming Racedays

Note: The Sat 26th September Syd meeting and Sun 27th Mel meetings are expected to be quite late, possibly later than the 10:30am deadline.
