The Carnival is Over

Another Cup Carnival is done and dusted. It is always a tough period. Longer-Term clients would remember when we used to suspend all strategies during the Flemington carnival.

So, how did the live strategies fare over this year's Flemington carnival period. It started on October 24th this year - Flemington hosted the Cox Plate.

Nationwide was the best performer over the five raceday period.

Elite Combo was very quiet with just nine bets during that period and a break-even result. The lack of value was frustrating - the longest priced winner was just $3.20.

1) **Betting from one bank 60:40 Elite Combo to Nationwide**, the result was **+ $582 net profit** from a total outlay of $2028.
   This is a **super-conservative** application of a $10,000 bank. The biggest bet you would ever have would be $120 if an Elite Combo was listed as $200. Ie 2.0% of the $6,000 bank allocated to Elite Combo.

2) To **keep it simple,** albeit a bit riskier, you could simply bet ALL qualifiers, as listed, from both Nationwide and Elite Combo. You could be backing the same horse twice.
   That result (also shown above) for the carnival period was **+ $1,442 net profit** from $4,470 invested (+ 32%)

3) To **keep it simple AND safe,** simply bet each **unique** Nat/Elite Combo qualifier as listed. Highest amount if dual qualified.
